

INTERHYDRAULIK GmbH • Am Buddenberg 18 • 59379 Selm

Factsheet – Interhydraulik at a glance

Field of activity	As a leading, internationally active systems provider for hydraulic components, Interhydraulik has for almost four decades been impressing in terms of competence and highest product quality. Apart from manufacturing hydraulic hose and tube assemblies, the planning and development of precise solutions for complex and individual customer requirements is our strength – fast, efficient, economically and environmentally compatible.
Foundation	1984 by Wolfgang Hirsch in Lüdinghausen
Legal form and address	Interhydraulik Company for hydraulic components with limited liability, Am Buddenberg 18, 59379 Selm, Germany
Management board	Wolfgang Hirsch Claudius Hirsch Roland Wolske
Locations	<u>Germany</u> Selm (headquarters) Vettelschoß (service centre) <u>China</u> Xiamen (Joint-Venture) <u>India</u> Mumbai (Joint-Venture)
Certifications	DIN EN ISO 9001:2015 DIN EN ISO 14001:2015 DIN ISO 45001 : 2018
Employees	worldwide ca. 220

Products

Assembled hose lines:

From low pressure to extreme pressure

Thermoplastic hose lines

Suction hose lines

Industrial hose lines

Excavation product line – suitable for extreme applications

Hydraulic tube assemblies:

Hydraulic tube assemblies (dimensions up to 65 x 8 mm)

Low pressure tube assemblies (dimensions up to 100 x 2 mm)

Smallest radiuses up to 1,25 x D

Hydraulic accessories:

Screw connections

Couplings

Ball valves

Clamps

Valves

Hose protection

Special components:

Distributors

Collectors

Suction fittings

Welded components

Additional products and services:

Construction services: from the development of a prototype to the start of production

Optimisation of components and assembly processes

Development and supply of pre-assembled components

Repair and spare parts service
